SOFT UND ORGANIC

ABOUT THE COLLECTION

Our Fall/Winter DIMO Collection 2024 has been developed based on the latest design themes and color trends to ensure a selection that stands out from others. Each item is made from high-quality materials and organic cotton. In terms of design, the focus was on the analysis of colors, drawing techniques, and textures. Based on this foundation, the collection encompasses a wide range of themes:

From the enchanting faces of small forest animals to the "Fly to the Sky" theme, there's something for everyone. For those seeking a girly touch, we have the "Flowery Flower" group, while the "Dino Lino" theme appeals to boys. Additionally, we offer various unisex motifs such as "Pumpkin Spycy," "Geometric Seagull," "Breakfast is ready," "Farmtastic," and versatile basics.

Collection Overview

We are introducing our new collection, featuring 11 wonderful capsules with innovative prints, colors, and materials. Among them, three capsules are specifically designed for newborns, divided into versions for boys, girls, and unisex. Furthermore, the baby section includes two capsules each for boys and girls, along with four for unisex. Noteworthy are the groups centered around the Teddy and Outdoor capsules.

With a focus on comfort and warming materials, we have curated a selection of items made from cozy and warming fabrics. Here, you will find snowsuits, vests, and jackets to provide optimal protection for the little ones against the cold and dampness.

Now, let's take a look at some of the captivating themes we have designed for this collection.

"Dino Lino"

Playful Dinosaur

Dino Lino introduces a group of playful little dinosaurs. Defined by a scribbled technique that adds a touch of modernity and fun. The colors of the print are diverse, creating a visually appealing composition. This group also includes embroideries, large prints, and fluffy blankets with soft bouclé applications, providing a tactile experience for your baby.

Farmtastic presents an impressive farm world with different animals in a fantastic environment. In addition to the prints, this group excels with cozy items made from our exceptionally soft drop needle velour. The playful character of the seamless pattern adds a certain charm to each piece.

"Farmtastic"

Farm Animals

TINY FOREST FACES

Welcome to our enchanting 'Forest Faces' collection for boys and girls! This unique collection is inspired by the secrets of the forest, bringing a delightful mix of playful designs and charming details for the little ones.

WE LOVE KIDS

THE BASICS

Our basics offer both comfort and style for the little ones. The sweat, waffle, and rib structures give the garments an interesting texture and an exceptionally soft feel. The capsule is available in various colors to cover individual preferences and current trend colors. The color palette is deliberately understated and tonal, allowing for versatility in combinations.

COZY AND WARM

DESIGNED BY DIMO-TEX

FLUFF EVERYWHERE

Whether as an overall to keep warm in the stroller, as a vest for transitioning, or as a jacket for the way to kindergarten, warming and wind-resistant Sherpa fleece is a must-have for the outdoor area. With a zipper and elastic binding, the items are easy to put on and take off and combine especially well as an outfit with our capsules.
